Why AIforAll Global?

AI is one of the defining forces of our time – with the power to expand human potential.

01 / THE CHALLENGE

The World Is Falling

Benefits concentrated

Benefits are concentrated in a few countries and corporations.

Exclusionary talent pool

The global AI talent pool is tiny and exclusionary. There needs a continuous evolution of Literacy need.

Value gap risk

No guarantee that new value from AI will flow broadly for Businesses and Personnel alike.

Widening inequality

Without intervention, AI will widen wealth, skills, and power gaps worldwide.

+130%

Demand for AI-native roles is exploding

40%

Of all jobs worldwide are at risk of disruption

US \$4.8T

Projected size of the AI market

02 / OUR RESPONSE

Building AI Literacy for All

We build AI literacy with purpose – enabling future-ready innovators through critical thinking, reasoning, and ethical judgment.

Future-ready learners and Workforce

Equipping the next generation with essential AI skills.

Bridge the AI divide with Ethical Governance

Ensuring AI opportunities are accessible to all.

Global Collaboration for human centricity

Fostering partnerships for widespread AI literacy.

Shared impact & recognition

Contributing to a more inclusive AI future together.

OUR MISSION

Igniting the Future: AI for Every Mind, Everywhere

We empower people, creators, and communities to turn curiosity into capability – by enabling access to AI education, tools, and ethical frameworks that foster inclusive innovation, social impact, and responsible AI adoption worldwide.

OUR VISION

Empowered Minds. Equitable Communities. An Inclusive Future

We envision an equitable and inclusive AI future, where people everywhere have the skills, tools, and confidence to thrive in the age of artificial intelligence, unlock opportunity, and lead meaningful change in their communities.

OUR STORY

The MIT Spark That Started It All

Talent is universal. Opportunity should be too.

— Prabhat Kumar, Founder, AlforAll Global

During MIT Professional Education, Prabhat, from Netherlands (with roots in Bihar, India) met 3 like-minded changemakers from Sweden, Mexico, and India. What began as a conversation became a conviction — and a movement was born.

<p>01</p> <p> The Realization</p> <p>AI was accelerating globally, but its benefits were not being shared equally. Communities, students, and creators were being left behind.</p>	<p>02</p> <p> The Decision</p> <p>Prabhat, Marie, Oscar, and Sangame decided to act — bridging the world's leading innovation hubs with the communities that need them most.</p>	<p>03</p> <p> The Movement</p> <p>Today, AlforAll Global spans 6 countries — ensuring AI literacy is a right, not a privilege, from MIT to classrooms in Latin America, India, and beyond.</p>

Knowledge & Community Channels

Podcasts • YouTube Learning Videos • Webinars • Community Meetups • Open Learning Resources

FOCUS AREA 1 / CAPABILITY BUILDING

AI Literacy for Capability Building

Our AI trainings are designed to help learners, professionals, and communities build the understanding, confidence, and practical capability to apply AI meaningfully. Each program is tailored to its audience, with emphasis on real-world use cases, responsible adoption, and fit-for-purpose AI agent building where relevant. Every program includes a hands-on build component through a project, applied use case, or capstone.

 <p>AI for Students</p> <p>Target: Bachelor / Masters Students</p> <p>GenAI for learning, academic projects, creative exploration & the application.</p>	 <p>AI for Developers</p> <p>Target: CS/IT Professionals, Coders</p> <p>Building GenAI applications and autonomous agents with code.</p>	 <p>AI for Educators</p> <p>Target: Teachers, Professors, Trainers</p> <p>Using GenAI to enhance teaching, create content, and assist student learning.</p>
 <p>AI for Professionals</p> <p>Target: Gov Staff, Managers, Executives, Other Professionals</p> <p>Utilising GenAI for decision support, productivity improvement, and communication.</p>	 <p>AI for SMEs</p> <p>Target: Small and Medium Enterprises, Founders, Business Owners</p> <p>Using GenAI to improve productivity, customer engagement, communication, and practical decision-making.</p>	 <p>AI for Citizens & Communities</p> <p>Target: Citizens, Community Members, Non-technical Learners, Seniors</p> <p>Building foundational AI understanding, digital confidence, safe usage habits, and practical everyday applications of AI.</p>

Learning & Delivery Models

AI Awareness Masterclasses	Targeted Workshops (Capability focused)	Role based Intensive Trainings (2-5 days)
----------------------------	---	---

Turning AI Capability into Applied Innovation

We do not stop at AI awareness. Our AI Lab and Incubation Factory turn learning into applied innovation. Rooted in an open-source and sovereign AI philosophy, we provide a vendor-independent environment for practical AI application building, experimentation, and product incubation. This enables learners, builders, and partners to explore AI with greater transparency, flexibility, and real-world relevance.

Global Applied AI Fellowship Pathways

Our fellowship pathways combine applied AI learning with real-world exposure across partner ecosystems in Europe and India. Designed for emerging talent - be it students, career-switchers or fresh graduates. We offer hands-on experience through practical projects, mentorship, and innovation-oriented work environments – with cross-country exposure as a distinctive highlight of selected pathways.

AI for All Global, Applied AI Fellowship Program
3 - 6 Months
Course, Lab, Internship, Placement and Community.

3–6 Months

Program Duration

2 Regions

Europe + India

Mentoring by Leaders

Hands-on Experience

Virtual, hybrid, and in-person learning,
Unique combination of Industry,
Consulting and Academia.

Cross-continent Exposure
Selected pathways may include
immersion across Europe and India.

State of the arts Lab, Applied
experience from Industry, stronger
readiness, and potential progression
into further advancement in career.
Community Support

Career-Orientation

Our pathways are designed to help participants build practical, portfolio-backed experience aligned to emerging job roles in an AI-shaped economy. Current pathways.

AI-Assisted Software
Development

Business Operations &
Automation with AI

AI-integrated Products
for enterprises

Digital Content creation
& Marketing

Flagship AI Powered EdTech Product Initiatives

A growing portfolio of initiatives designed to make AI more understandable, more practical, and more accessible across learning, experimentation, and application.

A(i)MPACT LAB

A vendor-independent AI Lab for practical application building, prototyping, and experimentation – aligned with open-source and sovereign AI principles.

ViDYA (विद्या)

An interactive learning application designed to help people understand how AI works through a step-by-step exploration of core AI concepts and internals.

GYANViTA

An AI assistant for educators, designed to support the teaching of specific topics through guided, personalized, and bounded learning experiences.

SENSEMAKER

A bottom-up approach to understand a group's current AI maturity and design learning pathways that match its needs and readiness.

A(i)NSTEINS

A guided AI learning companion for students and learners, designed to help them understand specific topics through personalized support within a defined learning context.

FOCUS AREA 3 / INSTITUTIONAL ENABLEMENT

Enabling Responsible AI at Institutional Scale

We partner with governments, institutions, and organizations to build the frameworks, capabilities, and assurance mechanisms needed for responsible AI adoption at scale. Our work spans AI literacy strategy, curriculum and CoE design, readiness assessment, and governance-aligned implementation.

AI LITERACY FRAMEWORK

Structured, scalable AI literacy frameworks and advisory support for governments, institutions, and enterprises.

AI Literacy Strategy Support • Stakeholder Mapping • Capability Benchmarking • Rollout Planning

Center of Excellence (CoE) Enablement

End-to-end CoE establishment for governments, institutions, and organisations.

AI Curriculum Architecture • CoE Design • Institutional AI Roadmap • Faculty Enablement

Responsible AI Readiness Support

ISO 42001-aligned readiness assessment and certification support through our partner ecosystem, helping institutions evaluate governance maturity and responsible AI implementation.

AI Management System Readiness • Risk Mitigation • Transparency • Accountability

ISO 42001-aligned Readiness Assessment Process

Delivered through our partner ecosystem and aligned with ISO 42001, the NIST AI RMF, and relevant EU AI Act requirements.

			
<p>AI System Evaluation</p> <p>Review of AI systems, use cases, and management practices against recognized AI governance standards.</p>	<p>Risk Assessment</p> <p>Systematic identification of AI-related risks, control gaps, and mitigation priorities.</p>	<p>Governance Setup</p> <p>Design of governance structures aligned with institutional needs and partner-enabled readiness pathways.</p>	<p>Compliance Reporting</p> <p>Structured reporting to support internal oversight, external assurance, and relevant regulatory expectations.</p>

04 / PARTNERS

OUR PARTNERS

We collaborate with world-class institutions and organizations to drive inclusive AI education and governance globally.

 <p>World AI Governance</p> <p>Strategic partner for AI Governance initiatives and ISO 42001 certification pathways.</p>	 <p>Kordyx AI</p> <p>India Partner for internship/fellowship delivery, integrating applied AI tools into our learning ecosystem.</p>	 <p>TAA IIT Kharagpur</p> <p>Lends academic rigour and institutional credibility as our curriculum and certification partner.</p>
 <p>AptInnova</p> <p>Powers our Lab infrastructure and enterprise-facing applied AI adoption programmes.</p>	 <p>WijThePeople</p> <p>Partner as an inclusive platform for multicultural diaspora in Europe for meaningful collaboration.</p>	 <p>Akanxa</p> <p>Co-creating AI-powered wellness solutions focused on impact in everyday life.</p>
 <p>Bharat AI Mission</p> <p>Our India strategy partner—scaling AI education via open-source ecosystems and grassroots networks across the subcontinent.</p>	 <p>Kairos consulting Solutions</p> <p>Partner for our Human Centered AI solutions and business consulting.</p>	<p>wayfinding</p> <p>way-finding</p> <p>Partner in defining AI literacy with cognitive process and physical experience</p>

05 / CONNECT

Why Partner with AiforAll Global?

Partner with AiforAll Global to expand AI understanding, build applied capability, and support responsible adoption across communities, institutions, and innovation ecosystems.

International Network

Cross-border collaboration across partner ecosystems spanning Europe, India, and beyond.

Governance-Aligned Approach

Work informed by ISO 42001, NIST AI RMF, EU AI Act, and other relevant standards.

Multidisciplinary Expertise

A network spanning AI education, applied innovation, governance, and domain-led implementation.

Ecosystem Building

We connect training, mentorship, partnerships, and applied innovation to create lasting AI capability.

Inclusive by Design

We work to make AI understanding, opportunity, and participation more accessible across diverse audiences and contexts.

Join the Movement

1

Co-Design Programs

Co-develop AI literacy programs, bootcamps, learning pathways, and institutional enablement initiatives.

2

Contribute Expertise

Share subject-matter expertise, mentorship, networks, tools, and ecosystem support.

3

Access Readiness Pathways

Engage with governance-aligned readiness assessment and certification support through our partner ecosystem.

4

Build & Innovate

Co-create AI products, pilots, internship pathways, and experimentation initiatives through our AI Lab and Incubation Factory.

We welcome partnerships with institutions, governments, educators, employers, innovators, and ecosystem builders who want to expand AI capability and shape responsible adoption.
